

At the August 2021 meeting, due to the ongoing health emergency, the Board voted to reinstate the policy to allow a one-time waiver of the Regulation 2.4 requirement for a three month in-person visit in order to refill a patient's pain medication so long as the prescription is a refill only and not a change of any kind to the current medication the patient receives. This waiver is available in accordance to Executive Order 21.14 and will end when the executive order expires.
